(A Component Unit of the State of Georgia) Schedule of Employer and Nonemployer Allocations and Schedule of Pension Amounts by Employer and Nonemployer June 30, 2020 (With Independent Auditor's Report Thereon)

DEPARTMENT OF AUDITS AND ACCOUNTS

270 Washington Street, S.W., Suite 4-101 Atlanta, Georgia 30334-8400

GREG S. GRIFFIN STATE AUDITOR (404) 656-2174

Independent Auditor's Report

Board of Commissioners of the Magistrates Retirement Fund of Georgia Mr. Homer Bryson, Secretary/Treasurer

We have audited the accompanying schedule of employer and nonemployer allocations of Magistrates Retirement Fund of Georgia (the Fund), a component unit of the State of Georgia, as of and for the year ended June 30, 2020, and the related notes. We have also audited the total for all entities of the columns titled net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total employer pension expense (specified column totals) included in the accompanying schedule of pension amounts by employer and nonemployer of the Fund (collectively, the Schedules) as of and for the year ended June 30, 2020, and the related notes.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these Schedules in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the Schedules that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the Schedules based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the Schedules are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Schedules. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Schedules, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Fund's preparation and fair presentation of the Schedules in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the Schedules.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the Schedules referred to above present fairly, in all material respects, the employer and nonemployer allocations and net pension liability, total deferred outflows of resources, total deferred inflows of resources and total employer pension expense of the Fund as of and for the year ended June 30, 2020, in accordance with accounting principles generally accepted in the United States of America.

Other Matter

We have audited, in accordance with the auditing standards generally accepted in the United States of America, the financial statements of the Fund as of and for the year ended June 30, 2020, and our report thereon, dated May 14, 2021, expressed an unmodified opinion on those financial statements.

Restrictions on Use

Our report is intended solely for the information and use of Fund management, the Board of Commissioners, the Fund employers, nonemployer contributing entities, and their auditors and is not intended to be and should not be used by anyone other than these specified parties.

Respectfully submitted,

Sheged Shipp-

Greg S. Griffin State Auditor

Notes to Schedule of Employer and Nonemployer Allocations and Schedule of Pension Amounts by Employer and Nonemployer

June 30, 2020

Note 1: Plan Description

The Magistrates Retirement Fund of Georgia (the Retirement Fund) was created July 1, 2006, by the General Assembly of Georgia for the purpose of paying retirement benefits to chief magistrates of the magistrate courts of the State of Georgia. The Retirement Fund administers a cost-sharing, multiple-employer defined benefit pension plan as defined in Governmental Accounting Standards Board (GASB) Statement No. 67, *Financial Reporting for Pension Plans – an amendment of GASB Statement No. 25*.

Employees of magistrate courts, including the chief magistrate, are employees of the county in which the court is located. The counties, as the employers of the members of the Retirement Fund, do not make contributions to the Retirement Fund. The State of Georgia provides nonemployer contributions to the Retirement Fund through the collection of court filing fees. These nonemployer contributions are recognized as revenue by the Retirement Fund when collected from the courts.

Note 2: Basis of Presentation

The Schedule of Employer and Nonemployer Allocations and Schedule of Pension Amounts by Employer and Nonemployer (the schedules) are prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles.

Note 3: Components of Collective Net Pension Liability

The components of the collective net pension liability (asset) of the participating employers and nonemployers at June 30, 2020 were as follows:

Total pension liability	\$ 22,655,110
Plan fiduciary net position	 (33,754,076)
Net pension liability (asset)	\$ (11,098,966)

148.99%

Plan fiduciary net position as a percentage of total pension liability

(A Component Unit of the State of Georgia)

Notes to Schedule of Employer and Nonemployer Allocations and Schedule of Pension Amounts by Employer and Nonemployer

June 30, 2020

Actuarial Assumptions

The total pension liability was determined by an actuarial valuation as of June 30, 2019, with update procedures used to roll forward the total pension liability to June 30, 2020. The roll forward calculation adds the normal cost (also called service costs), subtracts the actual benefit payments and refunds for the plan year, and then applies the discount rate for the year. This actuarial valuation used the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.5%
Salary increases	N/A
Investment rate of return	6.50%, net of pension plan investment expense, including inflation

Mortality rates were based on the PubG-2010 (Amount Weighted General Employees) Mortality Table with generational mortality projection using the Buck Modified MP 2019 scale for healthy lives and the PubG-2010 (Amount Weighted Contingent Survivor) mortality table with generational mortality projection using Buck Modified 2019 scale for current and future beneficiaries of deceased participants, and the PubG-2010 (Amount Weighted General Employees) Disabled Mortality Table with generational mortality projection using the Buck Modified MP 2019 scale.

The long-term expected rate of return on pension plan investments was calculated by the Fund's investment manager as 6.77% using a multi-input matrix that combines a Monte-Carlo simulation of multiple potential risk and return outcomes of the optimized asset allocation, and a weighted average projected return calculation using Morgan Stanley Capital Market return assumptions for all pertinent asset classes to which the fund is expected to be exposed. The Fund's administrator determined that 6.50% was a reasonable assumption for the long-term rate of return on plan assets based on the calculation by the Fund's investment manager.

Discount Rate

The discount rate used to measure the total pension liability was 6.50%, based on the expected long-term rate of return on pension investments of 6.77%, but assuming an annual rate of inflation of 2.5%. The projection of cash flows used to determine the discount rate assumes revenues will remain level. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

(A Component Unit of the State of Georgia)

Notes to Schedule of Employer and Nonemployer Allocations and Schedule of Pension Amounts by Employer and Nonemployer

June 30, 2020

Sensitivity of the Collective Net Pension Liability (Asset) to Changes in the Discount Rate The following table presents the collective net pension liability of the Retirement Fund, calculated using the discount rate of 6.50%, as well as what the Retirement Fund's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.50%) or 1percentage-point higher (7.50%) than the current rate:

	1%	Current	1%
	Decrease (5.50%)	discount rate (6.50%)	Increase (7.50%)
Collective net pension asset	\$ (8,619,427)	(11,098,966)	(13,212,383)

Note 4: Special Funding Situation

The State of Georgia, although not the employer of the Retirement Fund's members, makes contributions to the Retirement Fund through the collection of court filing fees as specified by O.C.G.A. §47-25-60. The State makes all these contributions to the Retirement Fund on behalf of the employers. Therefore, these employers are considered to be in a special funding situation as defined by GASB Statement No. 68, Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27.

Since the employers of the Retirement Fund's members do not contribute directly to the Retirement Fund, there is no net pension liability to recognize for each employer. However, the notes to each employer's financial statements must disclose the portion of the nonemployer contributing entity's share of the collective net pension liability that is associated with that employer. In addition, each employer must recognize its portion of the collective pension expense of the State as well as recognize revenue contributions from the State in an equal amount.

Note 5: Allocation Methodology

GASB Statement No. 68 requires participating employers and nonemployer contributing entities to recognize their proportionate share of collective net pension liability and pension expense. These schedules are prepared to provide employers and nonemployer contributing entities with their calculated proportionate share.

As discussed in Note 4, the counties, as employers of the Retirement Fund's members, do not make contributions to the Retirement Fund; therefore, the proportionate share allocation for each employer is 0%. The proportionate share attributable to the State of Georgia, as the nonemployer contributing entity, is therefore 100%.

Effective July 1, 2014, O.C.G.A. §47-25-81 was amended so that benefits and member contributions are based on the member's compensation, subject to a limit that is based on the

(A Component Unit of the State of Georgia)

Notes to Schedule of Employer and Nonemployer Allocations and Schedule of Pension Amounts by Employer and Nonemployer

June 30, 2020

population of the member's county. This law allows the Retirement Fund's Board of Commissioners to increase the population-based salary limits. The amounts attributable to the State of Georgia, as the nonemployer contributing entity, have been allocated to each employer participating in the Retirement Fund based on the maximum salary used to calculate benefits as of June 30, 2020. These maximum salaries are shown in the following table:

		Annual Salary	Monthly Salary	
Population of County	_	Maximum		Maximum
0 to 28,999	\$	42,781.22	\$	3,565.10
29,000 to 38,999		44,740.29		3,728.36

Note 6: Collective Deferred Outflows of Resources and Deferred Inflows of Resources

The following table presents a summary of changes in the collective deferred outflows of resources and deferred inflows of resources for the year ended June 30, 2020:

				Current Year		
Deferred outflows of resources	Year of deferral	Amortization period	Beginning of year balance	Additions	Deductions	End of year balance
Changes in assumptions	2014	8.5 years	\$ 201,958		80,785	121,173
	2016	7.6 years	197,731		54,926	142,805
Differences between expected						
and actual experience	2015	7.9 years	41,752		14,397	27,355
Differences between projected and	2016	5 years	259,943		259,943	-
actual investment earnings	2017	5 years	(136,702)		(68,350)	(68,352)
	2018	5 years	80,836		26,945	53,891
	2019	5 years	(525,984)		(131,496)	(394,488)
	2020	5 years		1,405,844	281,169	1,124,675
Net difference between projected and actual investment earnings (1)			(321,907)	1,405,844	368,211	715,726
Total deferred outflows of resources			119,534	1,405,844	518,319	1,007,059
Deferred inflows of resources						
Changes in assumptions	2019	6.8 years	\$ 38,737		6,679	32,058
	2020	8.1 years		3,099,048	382,599	2,716,449
Differences between expected	2014	8.5 years	51,015		20,406	30,609
and actual experience	2016	7.6 years	227,353		63,154	164,199
	2017	7 years	275,109		68,777	206,332
	2018	6.5 years	73,965		13,448	60,517
	2019	6.8 years	281,494		48,533	232,961
	2020	8.1 years		605,639	74,770	530,869
Total deferred inflows of resources			\$ 947,673	3,704,687	678,366	3,973,994

(1) In accordance with paragraph 71b of GASB Statement No. 68, collective deferred outflows of resources and deferred outflows of resources arising from differences between projected and actual pension plan investment earnings in different measurement periods have been aggregated and included as a net collective deferred outflows of resources related to pensions.

(A Component Unit of the State of Georgia)

Notes to Schedule of Employer and Nonemployer Allocations and Schedule of Pension Amounts by Employer and Nonemployer

June 30, 2020

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30,	2022	\$	(419,992)
i cai Elided Julie 30,		Ф	
	2023		(383,272)
	2024		(450,072)
